

Clinical Research Seminar Series

A monthly seminar series hosted by the Office of Research (FoMD) & NACTRC

The Clinical Trials Laboratory

An Orientation and Review of Processes & Changes

The Clinical Trials Laboratory (Alberta Health Services) is devoted to collecting, processing and transporting biospecimens for clinical and health research at the University of Alberta. Val Taylor of the Clinical Trials Laboratory will be presenting on the lab's services and processes to support investigators conducting clinical research.

Thursday, April 27th, 2017

2:00 – 3:00pm

WMC Classroom F (2J4.02 - next to the Dean's office)
