

Clinical Research Seminar Series

A monthly seminar series hosted by the Office of Research (FoMD) & NACTRC

Clinical Trials Budgeting

Part I: Industry-Initiated/Funded Trials

As part of a two-part series on clinical trials budgeting, **Sharon Appelman-Eszczuk** (Director of Operations, Gastrointestinal and Liver Disease Research Group) and **Sergey Nikitin** (President & Director, Prime Site Research Solutions Inc.) will provide an introductory seminar on clinical trials budgeting for industry-initiated/funded trials (Part I). Topics covered will include budget preparation, negotiation skills, and budget tracking. Part II of the series will focus on budgeting for investigator-initiated clinical trials.

This session will be geared to those with a beginner-to-intermediate level of knowledge and expertise with clinical trials budgeting. Please note that Part I is a repeat session with updated content.
