

The Northern Alberta Clinical Trials and Research Centre,  
on behalf of Alberta Health Services and The University of Alberta, is hosting the

**Weiser Research, Inc.  
Study Coordinator Training Program**

Weiser Research, Inc. is conducting a two day intensive training program created for Canadian study coordinators to enhance their skill set and knowledge base of clinical trial research. This course is filled with practical, hands-on presentations and workshops and has been designed for coordinators at all levels including veteran coordinators and those working in a hospital, private clinic, emergency room or critical care setting. Both sessions must be attended to receive a course certificate.

Core program topics include:

- Drug Development
- Good Clinical Practices
- Roles and Responsibilities
- Recruitment of Subjects
- Informed Consent
- Documentation
- Communication
- Adverse Events
- Audits
- Obstacles to Research
- Streamlining
- Ethics
