RE: Transportation of Dangerous Goods Certification

Effective January 13, 2021 the following process was initiated with regards to certification of Clinical Trials Staff who perform shipping by air and ground.

Staff will no longer complete the IATA Saf-T-Pak course and certification. Certification, every 2 years, will be provided solely through the following APL Traccess modules, with a certificate available upon completion:

- Transportation of Dangerous Goods — General Information
- Transportation of Dangerous Goods — Class 6.2 Infectious Substances — Ground Mode of Transport for Consignor and Consignee
- Transportation of Dangerous Goods — Class 6.2 Infectious Substances — Air Mode of Transport for Consignor and Consignee

Signed:

Advisor, Health and Safety, Integrated Programs
