

Pfizer
Investigator Training Program
 Facilitating Global Excellence in Clinical Trials

Clinical Trials Alberta

Pfizer Investigator Training (ITP) Program

Clinical Trials Alberta & the University of Calgary are excited to sponsor the regional delivery of Pfizer’s Investigational Training Program (ITP). ITP is an educational workshop specifically designed by Pfizer for clinical trial investigators and their study staff. The program aims to improve the skills at clinical trial sites required for the planning and conduct of clinical trials and the reporting of resultant data by reviewing the entire trial process from the planning stages through trial closeout activities.

Participants who attend the full training are also eligible to receive a TransCelerate Good Clinical Practices (GCP) Certificate

The Session Will Focus on These Key Areas:

Clinical Trial Safety

Informed Consent

Conducting a Study

Study Oversight

Start-Up Tools

Drug Development
